THE COOPERATOR EXPO 2017

DEALING WITH PROBLEM RESIDENTS & OBJECTIONABLE TENANTS - WHAT BOARDS CAN DO WHEN TALKING FAILS

Sponsored by: Smith, Buss & Jacobs 2:30pm - 3:30pm

More and more multifamily buildings and HOAs are adopting cogeneration systems to save on energy costs — but not all cogen systems are created equal. New technology and methods are making the transition faster, easier, and more wallet-friendly than ever before. Come learn about CHP and VSO technologies and how they can help your community save thousands by generating its own juice.
